

Journey Guides

1. Station at either meeting room 1 (primary room) or meeting room 2 (relief society room).
Welcome hosts bring the tour group into the meeting rooms. Journey guides play the 10 mins video. Tours start every 15 minutes and last about 1 hour.
2. Accompany one visitor group through the full experience.
3. Introduce yourself, establish rapport, and keep the group moving calmly and on schedule
4. Adjust pace when a station is delayed or a group falls behind, while preserving reverence and the visitor experience.
5. Watch for accessibility needs and help visitors navigate transitions between stations.
6. Answer appropriate questions when you can; if unsure, connect the visitor with another host, missionary, or leader rather than guessing.

Please share this script before beginning the tour:

“Before we begin, we have just a few reminders. This display is a sacred teaching experience, so we ask everyone to treat the space and one another with respect. Please stay with your group, walk rather than run, and don’t touch the displays unless you’re invited to do so. Please remain quiet when the station guides are giving their presentation. Please keep food and drinks outside the display area. Most importantly, we hope you’ll feel comfortable asking questions after each station presentation. Our purpose today isn’t simply to look at the tabernacle, but to understand what it teaches us about worship, sacrifice, and our relationship with Jesus Christ.”
